# TEFLON® GENERAL PURPOSE LUBRICANT, 3590, 3600, 3615, 3610, 3625

***Versatile, general purpose synthetic lubricant with wide operating temperature range: from -54 °C to +247 °C. Penetrates effectively into microscopically small areas. Lubricates efficiently and is very resistant to pressure. Reduces the wear and tear caused by friction between moving parts. A combination of oil and Teflon forms a protective lubricating film that effectively repels moisture . Applications: valves, guides, sliding surfaces, copying machines and office machines, conveyors, roller tracks, locks, guide rails, tools, etc.***
