

PUNCH OIL 57, 2360, 2361

Special lubricant for thin sheet metal stamping up to 3 to 4 mm. A combination of selected hydrocarbon compounds and aromatic-free basic fluids. Good cooling and lubricating properties. Fast, residue-free evaporation in packetised format. Die-cut pieces can be painted without cleaning. Reduces wear of punching tools. Low explosion limits provide safety in use. Neutral in odour. Boiling range 182 °C to 200 °C. Density 0.763 g/cm³. Flash point +63 °C. No ADR/RID. Store at +5 °C to +30 °C. Shelf life of 12 months.
