WATER-BASED WELDING SPRAY, 2630, 2631, 2632, 2633, 2634

The product is based entirely on the nature's own ingredients – it does not contain solvents or silicones and has a neutral odour. Water and vegetable extracts ensure the effective protection of workpieces and nozzles. Provides a temporary corrosion protection in both wet and dry states. The product has also a cleansing effect. The advantage is a trouble-free further processing, e.g. galvanising or painting directly after welding. PH 8.5, VOC content (the active substance) zero. The product does not cause hydrogen embrittlement. Suitable especially for high-temperature welding of thin sheet metal, as well as multi-layer welding.

Article number	Package size	Package	Batch/PCS	UN-code	EAN-code
2630	400/520 ml	aerosol	12		6 416631 026304
2631	5 l	tin canister	1		6 416631 026311
2632	10 l	tin canister	1		6 416631 026328
2633	25 l	tin canister	1		6 416631 026335
2634	200 l	barrel	1		6 416631 026342
